

54B JECT ~~was observed~~ on the morning of 23 July 83 <sup>in</sup> a restaurant. The restaurant was smaller than a normal restaurant (Cafe). It contained a counter and six tables.

<sup>was armed, HC</sup>  
 Subj entered the restaurant carrying a briefcase. Subj went to the back of the restaurant and entered a room with four black walls (Cafe). HE picked up a case 1" by 1" by 6". HE left an envelope with seven or 8 important papers <sup>etc</sup> on the counter in the room. Inside the case was a very small circuit board. There was also a small black armature type thing with an antenna sticking out of it built in the corner of the case (info). SUBJECT took something out of this case, perhaps the circuit board, wrapped it in a napkin and threw it in a trash can because he did not want it (info).

Later on the ~~morning of~~ 23 July 83 (info)

S4B entered a light colored building <sup>(A)</sup> through a side door. The building had a inverted V roof line, white walls and a single side door surrounded by a parking lot or parking area. S4B encountered no one else in the building. He went through some hallways and removed some papers from a file in a cabinet. Source felt these papers were some type of government information (info)
